PRINCE KYEI

JUNIOR WEB DEVELOPER | REACT & TYPESCRIPT | PASSIONATE ABOUT GOVTECH

I'm a junior web developer with experience in React, TypeScript, and UI-focused design. I care about building applications that are accessible, responsive, and have real-world impact especially in the public sector. Currently looking for mission-driven opportunities where I can learn, grow, and contribute.

WORK EXPERIENCE

SOFTWARE DEVELOPER

PRO ADVISOR GROUP [REMOTE] - May 2024 - September 2025

Following successful completion of the internship, promoted to freelance developer role. Awaiting next project phase while actively seeking new opportunities to grow professionally and contribute to diverse work environments.

- Demonstrated initiative and strong technical skills that led to early promotion from intern to freelancer.
- Supported initial development of a real estate platform using Next.js, TypeScript, and Node.js.
- Built scalable frontend components and contributed to performance optimization during the internship phase.

FULL STACK DEVELOPER

BELGIAN CALL CENTER [HYBRID] - September 2024 - March 2025

- Built and deployed client-facing web interfaces for an AI-enhanced support tool.
- Delivered solutions adopted by 4 clients, streamlining content handling and support workflows.
- Collaborated with technical experts to industrialize and scale new digital features.
- Supported digital content deployment and troubleshooting, ensuring smooth online experiences for users.

FULL STACK DEVELOPER INTERNSHIP

Walter Clayton Dev [Brussels] - January 2023 - March 2024

- Enhanced WordPress blog performance via REST API, cutting load times by 40%.
- Developed tracking features with MongoDB, improving user retention by 15%.
- Published and updated website content within WordPress CMS to maintain user engagement and consistency.

JUNIOR WEB DEVELOPER TRAINEE

BeCode [Brussels] - May 2023 - November 2023

- Led frontend development for **Beqanda Quiz App** using **React** and **Tailwind CSS**, achieving a 30% improvement in user engagement by enhancing interactivity and responsiveness.
- Collaborated with backend teams to integrate real-time data synchronization, reducing response time by 25%, which boosted the app's performance and user satisfaction.

WEB & GRAPHIC DESIGN TRAINEE

CVO [Brussels] - september 2020 - June 2021

- Designed and developed responsive websites using **HTML, CSS, JavaScript, and Adobe tools.**
- Built a hotel website project scoring 95% in usability tests.
- Applied UI/UX and accessibility principles for usability and design quality.

EDUCATION

JUNIOR WEB DEVELOPER PROGRAM

BeCode [Brussels] - May 2023 - November 2023

- Completed full-time, intensive training in full-stack web development
- Built scalable, responsive web apps using React, JavaScript, HTML/CSS
- Worked in agile teams, integrating backend services and following best development practices

WEB DESIGN

CVO Brussels, [Anderlecht] - September 2020 - June 2021

- Trained in web and graphic design using Adobe XD, Photoshop, HTML, CSS, JavaScript
- Built a responsive hotel website that scored 95% usability in testing
- Applied UI/UX principles and created interactive designs that earned top project recognition
